FREEDOM 4-BIKE

- **Zero bike frame contact!** Safe and simple fixed position arm protects frame and fork from damage.
- **Aluminum Construction** – Makes the rack lightweight, strong, rust-resistant, and easy to install.
- **Locking** – Wheel hooks and hitch pin secure bikes to rack and rack to vehicle.
- **Folding** – Folds up tight against vehicle when not in use, tilts away for rear vehicle access with bikes loaded.
- **Ratcheting Wheel Straps** – Keep bike secure for ultimate peace of mind on the road.
- **Anti-Wobble System** - Locking thread hitch pin keeps rack steady and secure in your hitch.
- **Fast Fit** – Rotating wheel tray automatically adjusts to your bicycle's wheelbase.
- **Compact Design** - Smallest on-vehicle footprint of any 4-bike tray-style rack
- **Carries 4 bikes** - 60 lb/bike in bike trays closest to vehicle, 35 lb/bike for second two trays.
- **Fender Friendly** - Compatible with bikes with fenders.
- **Compatibility** - Compatible with 2" receivers and fits bikes with a wheelbase up to 52" and wheel sizes from 20" up to 29" x 3"
