HITCH SAVER

Guarantees a perfect fit every time, making bike rack installation quicker and hassle-free.

- **Simplifies Rack Installation:** Ensures your hitch mounted bike rack always fits in the same position, speeding up the installation process.
- **Precision Fit:** Eliminates guesswork by marking the exact depth your racks should go into the hitch.
- **Durable Construction:** Made from high-quality aluminum to withstand weather and regular use.
- **Quick Setup:** Easily installs around your 2" hitch and secures with a 4mm hex key.
- **Consistent Alignment:** Helps maintain consistent rack alignment every time you install your bike rack.
- **2" Design:** Compatible with most 2" hitch receivers and bike racks.
- **Great for Frequent Rack Users:** Perfect for anyone who frequently installs and removes their bike rack.
