ACHIEVE ROCK-SOLID INSTALL.

SUPERCLAMP

From Mountain Peaks to City Streets: SuperClamp Has You Covered

The fastest-loading bike rack around just got a major upgrade.

- **Zero bike frame contact!** Safe and simple fixed position spring loaded arm will not contact frame or fork.
- **Fixed Position Arm** - Eliminates guesswork on where to place the arm and hook on your tire.
- **Spring-Loaded Arm** - Safely and securely holds your bike in place, even in the event of tire pressure loss.
- **Integrated Locking Hook & Hitch Pin** - Provides peace of mind knowing your bikes and rack are secured.
- **Tool-Free Anti-Wobble System** - Ensures a fast and rock-solid connection to the vehicle.
- **Adjustable Front Wheel Block** - For improved bike fits from 20" to 29" wheels.
- **Tilts & Folds** - Allows access to hatch, tailgate, or trunk with bikes installed & reduces footprint when not in use.
- **All-Aluminum Construction** - Makes the rack lightweight, strong, and rust-resistant.
- **Integrated Lock Loop** - Provides additional locking point for enhanced security with a locking cable.
- **Supports eBikes** - Carries 2 bikes up to 60 lb. each.
- **Fender Friendly** - Compatible with bikes with fenders.
