MHS LIGHTING

MHS Lighting provides additional safety and ensures your vehicle lights remain visible while on the road!

Avid cyclists and trail hunters value safety. MHS Lighting ensures you are street-legal while using any MHS configuration. Install the MHS Lighting on any MHS Base to ensure rear vehicle lights remain visible for any possible scenario. A 4-Flat pin connections provides power to a set of DOT certified powerful LED lights with full vehicle OE (brakes, turn signals, hazards, and taillights).

- Ensures vehicle lights remain visible with any MHS System configuration.
- Powerful LED taillights, DOT / FMVSS108 compliant, full brake, turn signal, and hazard light functionality.
- 4-Flat to 4-Square pin accessory included. Uses 4-Flat connection to connect to vehicle power.
- Wiring designed to fit within MHS Base to keep wiring out of the way.
- For MHS Base only.

MHS Lighting - 4695 | MSRP: \$189.99
