TAILGATE PAD

TOTAL TAILGATE SUPPORT Crafted with precision and innovation, the Saris Tailgate Pad ensures nothing comes between your bike and top-tier protection. The quick-attach/release G-hooks deliver a seamless loading experience while the long bike straps accommodate even the bulkiest eBikes, delivering the perfect combination of flexibility and ease.

Featuring 30mm continuous padding and a 40mm multi-density foam profile, the Tailgate Pad keeps up to five/six of your bikes safe, secure, and ready for your next adventure.

- Two 11x6" inner storage pockets for tools, pumps, gloves, and more.
- G-hook's curved design protects bike frames and will not deteriorate over time.
- Fold-up window provides clear backup camera viewing and handle access.
- Included web strap routing tool for easily feeding the straps around the tailgate bottom seam.
- Strategic block spacing secures wider and heavier e-bike downtubes for additional shock dampening.

TGP100 - Small 5 bike positions - \$219.99

TGP200 - Large 6 bike positions - \$229.99
