

ELECTRIC PUBLIC BIKE PUMP

Nothing beats topping off your tires with the push of a button! The Electric Public Bike Pump is the pinnacle of luxury when it comes to maintaining proper PSI. Wall-mounted or pedestal mounted, indoors or out, this pump quietly and efficiently gets your wheels ready to roll.

Product Specifications

- Internal compressor supplies air when activated by button
- Quiet operation (<40dB)
- Wall-mounted, or optional pedestal (#26267) for flexible installation
- Worldwide power options (available in 120/240V 50/60Hz)
- Dual pump head works on Schrader and Presta valves

Electric Public Bike Pump

Parallel Wall or object Setbacks:

Both sides of the electric public bike pump should be at least 12" from walls or other obstructions. If pedestal mounting, we suggest mounting it tight against a wall. See Figure 1.
